📍 Al-Zahraa-Homs Governorate

SUMMARY

I am Raghad Al-ali a software and information systems engineer with a degree from Al-Baath University (Class of 2023), I bring a strong foundation in technology and innovative problem-solving. My expertise was further honed through two valuable training experiences:

At FocalX Company, I spent five months mastering React framework techniques to design and develop responsive front-end interfaces that seamlessly adapt across various screen sizes.

Following these technical pursuits, I expanded my skillset by serving as a technical support specialist at Arfada Petroleum Company for three months, gaining practical experience in real-world IT challenges.

I possess excellent time management skills, demonstrating the ability to work under pressure and commit to deadlines. My customer-centric approach ensures professional interactions characterized by kindness and respect.

With this blend of academic knowledge, hands-on training, and professional experience, I'm well-equipped to tackle software engineering projects while delivering user-friendly, cutting-edge solutions.

EDUCATION

Software Engineering and Information Systems

Al-Baath University

📅 2018 - 08/2023

EXPERIENCE

Technical Support Intern

Arfada Petroleum Company

📅 05/2024 - 08/2024 📍 Homs Governorate, Syria

Intern

focal X agency

📅 02/2024 - 06/2024 📍 Latakia Governorate, Syria
