SUMMARY

I am a software and information systems engineer. Currently, I am training at Focal X company in the field of website design and development using the React.js framework.

I have full knowledge of Microsoft Office programs and the ability to deal with them.

I have the ability to develop mobile applications using the Flutter framework with 40% experience, and I am working to develop myself further in this field.

I have the ability to design e-commerce websites using WordPress, and I have the ability to manage software and non-software projects using Jira, and I have the ability to design using the Figma program.

I have the ability to handle work pressure, work long hours, and the ability to commit to time and deal with customers with love, kindness, and respect.
